Dear Sir,

We have received your address from a mutual acquaintance in trouble, the government of Turkey in the game of Victory 14. We write this letter in relation to increasing tensions on our North-Western border, tensions concerning Iraq, Syria, Southern Russia and Turkey. This might also be of grave concern to your nation, because of the total alliance between Syria and Southern Russia.

If you would be willing to give us some information on your foreign policy, especially relating to Iraq, please contact us.

It is probably a correct assumption that you too feel that Syria and Southern Russia are a big threat to our fine peace-loving nations. In order to solve this problem, Syria should be neutralized as soon as possible. A mutual attack on Syria could work to both our great advantage. If you are prepared to discuss options and more steps to be taken against these aggressors, call or write to our Prime-Minister, the great Sjah of Persia.

Awaiting your reply, we remain,

yours sincerely,

Michael Zuurman
Minister of Foreign Affairs
under command of
Sjah Olaf Meester
